

# Ice cream! Get your ice cream!

The ice cream stand has **2** kinds of ice cream: **chocolate** and **strawberry**. How many *different* double scoop ice cream cones can you make?

What if the ice cream stand has **3** kinds of ice cream: **chocolate**, **strawberry**, and **cotton candy**? Now how many different double scoop ice cream cones can you make?

# We all scream for ice cream!

How many different **triple scoop** ice cream cones could you make with two flavors, **chocolate** and **strawberry**?

How many different **triple scoop** ice cream cones could you make with **chocolate**, **strawberry**, and **cotton candy** ice cream?
